Each of the plastic spikes had blossomed into a fanciful windmill, no two of them just alike. There were tiny ones, with the vanes parallel to the ground and no more than ten centimeters tall. There were derricks of spidery plastic struts that would not have looked too out of place on a Kansas farm. Some of them were five meters high. Barry was obliged to wait out on the sidewalk, which wasn't possible, due to a cold wave that persisted through most of January. He left a message at the Apollo Theater, where the pageant was held, giving three different times he would be waiting for her at Intensity Five. She never showed. By mid-February, he'd begun to be alarmed. Early one morning, defying the weather, he posted himself outside her building and waited (five miserable hours) till she appeared. She was profusely apologetic, explained that she did have his sticker, there was no problem, he shouldn't worry, but she had an appointment she had to get to, in fact she was already late, and so if he'd come back tonight, or better yet (since she had to see somebody after the pageant and didn't know when she'd be home) at this time tomorrow? Thoughtfully, she introduced him to the doorman so he wouldn't have to wait out in the cold.. He shrugged. "Oh, nothing much. Unfortunately, launching twelve thousand torpedoes simultaneously put a serious overload on our computer system. Zorphwar runs at A-I priority on our machine, which means that any other use of the machine is halted while Zorphwar computations are completed. As you may have noticed, it took approximately forty minutes for the machine to compute the paths through the galaxy of those torpedoes, to determine their impact points, and to calculate the radius of destruction of each burst. Normally such overloads are handled by adjusting the work load in the Computer Center. However, at three thirty yesterday, the Center was in the midst of printing the paychecks for the entire Computer Products Division. The little delay our game occasioned upset the very tight schedule for that operation. As a result, all checks from R through Z were not printed on time and failed to make the courier flight to the West Coast That is the reason your paycheck was not delivered to you today. Regrettably, it is also the reason that Division President Tailing and Corporation Comptroller Westland were not paid this week. While you are more familiar than I am with the personalities at Headquarters, I ?aspect that both of these gentlemen like to receive their paychecks. I trust that, if any investigations come out of this little incident, you will do your best to emphasize the fact that the Zorphwar program has already been modified to permit the launching of no more than tea doomsday torpedoes in one attack. Thus, this particular problem on never occur again.. A similar case is that of H. G. Wells's The Island of Dr. Moreau, filmed with superbly demonic atmosphere as Island of Lost Souls in 1932. Charles Laughton, maybe the best actor yet to appear on film, gives an extraordinary performance as Dr. M., and Bela Lugosi captures the spirit of the beast men as the Speaker of the Law with the abhuman quality that characterized his Dracula. Now Burt Lancaster is one of film's most underrated actors, but his straightforward non-intellectual approach to the doctor role undermined the '70s trip to the Island; Richard Basehart didn't help matters by looking like a beneficent Old Testament prophet in the Lugosi role. But even Laughton and Lugosi would have been hard put to come across, with the later film's completely uninteresting script and camerawork.. "Only the shiny surface of things keeps us apart," said Lea. "Now if you dive through here, you can.. bids for components, plans for which he enclosed, from electronics manufacturers, for plastic casings.. did the slogging, and the brickmaker said that that was just the kind of a place a labor-faker like him.. The grey man took the last piece of the mirror, went to the wall, and fitted it in place, saying, "The one thing I have always wanted more than anything else, for myself, for my nearest and dearest friend, is a woman worthy of a prince.. "Who is your friend?" asked Amos. Though he had not heard the beginning of the story, the whole.. "I'll just get it quickly without any fuss," said the grey man. But when he stepped forward, the unicorn.. Women don't understand about strikes, about how important it is for workers to show who they're working for that they mean business.. Mary Lang sighed, slapped her thighs, and stood up. Like all the others, she was nude and seemed totally at home with it None of them had worn anything but a Martian pressure suit for eight years. She ran her hand lovingly over the gossamer wall, the wall that had provided her and her fellow colonists and their children protection from the cold and the thin air for so long. He was struck by her easy familiarity with what seemed to him outlandish surroundings. She looked at home. He couldn't imagine her anywhere else.. Amos stood blinking as jewels by the thousands fell out on the floor, glittering and gleaming, red, green, and yellow.. the last piece of the mirror. For if I do lose.. Science fiction is a small country which for years has maintained a protective standards-tariff to encourage native manufactures. Many readers are, in fact, unacquainted with the general canon of English literature or the standards of criticism outside our own small field. Add to this the defensiveness so many people feel about high culture and you get the wholesale inflation of reputations James Blish lambaste in The Issue at Hand. Like him, I believe that somebody has to stop handing out stars and kisses: If "great writer" means Charles Dickens or Virginia Woolf (not to mention William Shakespeare), then it does not mean C. S. Lewis or J. R. R. Tolkien, about whom the most generous consensus of mainstream critical opinion is that they are good, interesting, minor authors. And so on.. Someone immediately spilled the beans about Zorphwar. (I suspect it was J.L., covering his ass.) Friday afternoon Westland came slamming into my office to ask about a thousand questions about our schedules and the cost of running Zorphwar. I tried to get him to try using the program, but he was too upset to listen to reason. He gave me one hour to produce a full report justifying the project and went storming back up to the executive wing. We have to go out to the dome and find out what the hell caused the blowout. The damn thing should not have blown; it's the first of its type to do so. And from the bottom.
